

POLICY ON RECOMMENDATION TECHNOLOGIES DGP

1. General

This Policy defines the principles and use of recommendation algorithms on <https://dgpartners.legal/> (the "Website").

Developed in compliance with Russian laws including Federal Laws No. 149-FZ, 152-FZ, and 422-FZ.

2. What Are Recommendation Technologies

Automated technologies providing personalized content, products, or services.

3. Purpose

Improve user experience, suggest relevant content, enhance interface usability, and personalize content.

4. How It Works

Recommendations based on analysis of:

- User browsing history and actions;
- Search queries;
- Previously selected or purchased goods/services;
- Location (if accessible);
- Device technical parameters.

Third-party analytics and marketing services complying with Russian laws may be used.

5. User Control

Users can:

- Opt out of personalized recommendations (if available);
- Adjust content preferences (if interface allows);
- Contact support for explanations or complaints.

[If opt-out/settings form exists, add link: "Go to settings"]

6. Data Sharing

Personal data not shared with third parties without legal basis; necessary data transfer for recommendation system operation complies with data protection laws.

7. Data Protection

Technical and organizational measures in place to prevent unauthorized access, alteration, or destruction.

8. Contact
